

# How We Make Your Project a Success

## Keeping You On Schedule

PM creates a clear schedule that meets project requirements

PM ensures good communication and coordination between professionals (Architect, Designer, Engineers) through a defined meeting schedule

PM focuses daily on schedule dates and ensures all stay on track

PM is expert at managing architects, engineers and contractors to ensure delivery

## Meeting Client Expectations

PM ensures clearly defined project scope and objectives

PM sets up and manages communications and construction Meetings

PM responsible for comprehensive communication, paperwork & reporting processes put in place to manage the project

PM's only focus is the Project Management

## Managing Costs and Ensuring Value

PM ensures client needs are properly translated into construction drawings

PM manages unforeseen site conditions through better pre-construction investigations

PM makes sure the budget represents "Total" Project costs including all 'soft costs'

## Project Schedule & Budget Met

Critical Path Projects represents your interests and is responsible for ensuring your project is delivered on budget and on schedule.
